

### TECHNICAL DATA

**Operating range:**

from 0.6 to 5.4 m<sup>3</sup>/h with head up to 61 metres.

**Liquid quality requirements:** clean, free from solid or abrasive contaminants, non-viscous, non-aggressive, uncrystallised and chemically neutral, close to the properties of water.

**Liquid temperature range:**

from 0°C to +35°C for domestic use (EN 60335-2-41).

for other use: from 0°C to +40°C

**Maximum suction depth:** 8 metres.

**Maximum ambient temperature:** +40°C

**Maximum operating pressure:** 8 bar (800 kPa)

**Installation:** fixed or portable in a horizontal position.

**Special executions on request:** alternative voltages and/or frequencies.

**Motor protection rating:** IP 44

**Terminal block protection rating:** IP 55

**Insulation class:** F

**Standard input voltage:** single phase 220/240 V / 50 Hz

### APPLICATIONS

Automatic booster sets, especially suitable for domestic use, small civil, farming or industrial installations, washing plants and leisure activities.

These feature JETINOX self-priming electric pumps, which work even in the presence of air bubbles and small sandy impurities in the water.

The assembly comprises a 20 litre capacity membrane tank, pressure switch for automatic operation, pressure gauge, JETINOX electric pump with power cord with plug, fittings kit between the pump and the tank, all fully assembled and ready for installation.

### CONSTRUCTIONAL FEATURES OF THE PUMP

Pump body, seal holder cover and wear ring in stainless steel.

Motor support in die cast aluminium.

Impeller, diffuser, venturi tube in technopolymer.

Carbon/ceramic mechanical seal.

### CONSTRUCTIONAL FEATURES OF THE MOTOR

Asynchronous type, closed, with external air cooling.

Rotor mounted on oversized greased-for-life ball bearings, to guarantee low noise and long life.

Incorporated thermo-amperometric protection and permanently inserted capacitor in the single phase version.

It is recommended to use overload protection for three phase motor protection, in compliance with current legislation.

Manufacture pursuant to CEI 2-3 and CEI 61-69 (EN 60335-2-41) standard.
